All Mastercard consumer debit cardholders in the US are eligible for this coverage.

It is also the platform for cardholders to respond to identity monitoring alerts.

Monthly Risk Alert / Newsletter: Cardholders will receive a monthly newsletter with information on the cardholder's risk score, and articles pertaining to good identity protection practices.

Identity Monitoring: IDT searches the internet to detect compromised credentials and potentially damaging use of your personal information, and alerts you via email so that you can take immediate action. This platform utilizes automated monitoring and human threat intelligence from cyber operations agents monitoring threat actors and their tactics on the deep and dark web where personal data is bought and sold. Data elements that can be monitored are:
